

The Singapore Art Society Mini Painting Exhibition 2016

1. Objective

To create and produce a mini affordable art exhibition to showcase member artists diversified works at affordable prices to art lovers, collectors, artists and public at large.

After much discussion and deliberations, the committee has decided on 2 set of dimensions for the final artwork for the exhibition.

2. Final Dimensions of artworks

Type 1 - 40cm X 40 cm

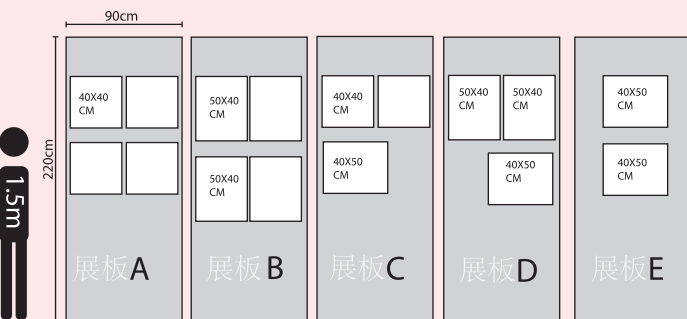

Type 2 - 50cm X 40 cm (portrait or landscape orientation)

Note : Final artwork

- can be with or without frames
- can have numerous smaller works to form an artwork
- can present your work in a circular, fan, star or moon shape.
- final artwork must conform to the 40x40 and or 50x40 final dimension
- due to the final dimension of artwork, members must challenge themselves to create, develop and produce new works to showcase their style for this exhibition. The Society encourages artists who have sold their works in the exhibition to acquire works of other member artists . We hope that this will lead to an buying chain thereby creating an exciting buying atmosphere at the exhibition.

3. Artworks per participant

Each participating artist is allotted an exhibition panel (220cm X 90cm). The number of artworks per participant will depend on which type of presentation format they choose from the 5 types given. (See Fig.)

4. Presentation of artwork : choose any 1 out of 5.
